Synthetic Caliper Grease

Technical Data Sheet

Rev 11/08

PRODUCT DESCRIPTION: A high quality, economical synthetic brake grease formulated to prevent disc brake squeal and increase brake life by protecting and lubricating critical brake parts. Formulated from pure synthetic base oils and is selectively treated with rust, oxidation and anti-wear additives coupled with a shear stable thickener to provide maximum parts protection in a wide range of temperatures.

WORKS BEST ON: Use on disc brake calipers, brake hardware, spark plug boots, battery terminals, electric connections, valves, pool equipment, and bushings.

PRODUCT FEATURES:

- Temperature Range -5°F to 400°F
- Waterproof, will not washout. Insoluble in water, glycol, glycerine and vegetable oils.
- Prevents Rust and Corrosion
- High Dielectric Strength
- Non Melting
- Silences Calipers
- Reduces Wear
- Color: Blue
- Chemical Resistance: automotive fluids such as oil and solvents.
- Storage: Store in a cool, dry environment.

SURFACE PREPARATION: Thoroughly clean all surfaces grease is to be applied on. Remove dust, dirt and etc.

REMOVAL METHODS:

- Before Cure: Wipe off excess with a cloth.
- After Cure: Remove with a brake and parts cleaner.

See MSDS for more complete information, safe handling instructions and first aid.

Non-Regulated

Part Numbers: 26080, 26189, 26111
